mwendwamutinda24@email.com • +245714910482 • Nairobi, Kenya

SUMMARY

I am a skilled software and AI engineer with extensive experience in building dynamic web applications, Mobile Apps and Desktop Applications . My expertise includes JavaScript, React ,java, Python, Php ,C++ , Flutter(Dart), TensorFlow and ScikitLearn and ensuring optimal user experiences through thoughtful design and creating best Intuitive user Interfaces .I have over 3+ Years experience in software development

SKILLS

Programming Languages	Java, Python, JavaScript, C++, React Native, Flutter(Dart)
Frameworks	Spring, Django, React, Nodejs, Django, Laravel, Nextjs, Tailwindcss, Expressjs
Databases	MySQL, MongoDB
Tools & Technologies	Git
Soft Skills	Problem Solving

EDUCATION

Bachelor of Science in Applied Computer science

Chuka University, Chuka, Chuka 2023 - Ongoing

- Graduated with a degree in Software Engineering, with a strong focus on **full-stack development** encompassing both front-end and back-end technologies.
- Completed rigorous coursework in **Data Structures, Algorithms, Database Management** and Software development which are essential for developing efficient software applications.

PROJECTS

ExperBrain 2026-2-2 - 2026-10-2

MERN STACK, python(TensorFlow)

- Designed and developed **ExperBrain**, a platform for managing datasets and integrating **Large Language Models (LLMs)** to support advanced analytics and AI-driven insights.
- Built a responsive **frontend with React.js and Tailwind CSS**, enabling intuitive dataset upload, visualization, and query interfaces.
- Implemented a scalable **backend with Node.js and Express.js**, supporting RESTful APIs, secure authentication, and real-time data processing.
- Structured and optimized **MongoDB schemas** for efficient dataset storage, retrieval, and version control.
- Integrated **LLM capabilities** to allow users to query datasets in natural language and generate contextual summaries.
- Delivered a platform that streamlined **data exploration, AI experimentation, and collaborative research workflows**.

School Portal 2025-10-10 - 2026-3-3

Reactjs,Php ,Tailwind css and Mysql

- Engineered a **school portal system** enabling teachers to update results, manage student records, and generate report cards.
- Built a responsive **frontend with React.js and Tailwind CSS**, ensuring a clean, mobile-first interface for teachers, students, and parents.
- Developed a secure **backend using PHP and MySQL**, implementing authentication, role-based access, and efficient database queries.
- Integrated **admin dashboard features** for class/subject management, performance analytics, and communication tools.
- Optimized data handling with **MySQL relational schema design**, improving query speed and reliability.
- Delivered a scalable solution that streamlined **results entry, reporting, and parent engagement**, reducing manual workload for teachers.

Online Shop 01-06-2025 - 01-07-2025

React, Node.js, MongoDB

[GitHub](#) [Live Link](#)

- Developed a fully functional **e-commerce application** using **React** for the front end and **Node.js** for the server side, backed by a **MongoDB** database.
- Implemented secure **user authentication** and integrated seamless **payment processing** using third-party APIs to enhance user experience.

Personal Blog

15-01-2026 - 24-01-2026

Raectjs CSS, Laravel and Mysql

[GitHub](#) [Live Link](#)

- Created a **responsive personal blog** leveraging modern web technologies to ensure accessibility across devices.
- Designed a dynamic **frontend with React.js and Tailwind CSS**, delivering a clean, mobile-first user experience.
- Built a secure **backend using Laravel (PHP framework)**, implementing authentication, CRUD operations, and RESTful APIs for seamless data exchange.
- Structured and optimized a **MySQL database** to manage posts, comments, and user profiles efficiently.
- Integrated **admin dashboard features** for content management, analytics, and moderation.
- Enhanced performance with **scalable architecture**, ensuring fast load times and reliable data handling.
- Delivered a polished platform that improved **content publishing workflow** and showcased strong full-stack development skills.

WORK EXPERIENCE

Tech Solutions Inc.

Software Developer

2025-05 - 2025-08

- Demonstrated expertise in **JavaScript** through the development and maintenance of web applications utilizing React and Node.js, contributing to increased user engagement by 30%.
- Contributed to team success by participating in code reviews and enhancing the team's knowledge base, improving code quality and collaboration.
- Designed and implemented **RESTful APIs** for efficient data exchange, streamlining communication between front-end and back-end systems.

ExperBrain

Junior Software Developer

2026-01 - Present

- Gained proficiency in **React Native** by assisting in the development of a mobile application, which was successfully launched ahead of schedule.
- Executed thorough testing and debugging processes on software applications, resulting in a 25% reduction in reported bugs post-deployment.
- Enhanced application performance by actively collaborating with senior developers and implementing optimization strategies.
